Team 610: Crescent Robotics

What is Team 610?

Team 610 is a world class, FRC League, student led High School robotics team from Crescent School in Toronto, Ontario. Team 610 is the only independent boys' school that has won an international robotics competition. For seventeen years, Team 610 has competed in the FIRST Robotics Competition, and is one of the original FRC teams in Canada. Some of our greatest achievements include winning the FIRST Robotics Competition World Championships in 2013 as well as receiving numerous engineering and design awards.

Team 610 Achievements

Achievements Include:

6 time recipient of the Motorola Quality Award

6 time winner of Regional Competitions

Winner of the 2013 FIRST Championship

4 time winner of Engineering Inspiration and Excellence Awards

Team 610 Structure

Team 610 is composed of several divisions, each of which plays a vital role in Team 610's success.

The Administration division is responsible for tasks such as budgeting, scheduling, and food. Their responsibility is to execute the corporate duties of the team.

The Public Relations division is responsible for maintaining the public image of Team 610. Team members in the Public Relations division learn skills such as communication, content/media production, and brand recognition.

The Design & Manufacturing division is responsible for designing subsystems in CAD (Computer Aided Design) software, fabrication of parts, systems integration, and final assembly of the robot.

The Energy Systems division is tasked with wiring the robot with motors, sensors, and pneumatics once the manufactured parts have been assembled into a robot.

The Programming division is tasked with coding the necessary functions into the robot. This includes commands to activate pistons, algorithms to control motors, and status checks before performing a function.

The Strategy division works to produce a match-winning strategy. This is done through our custom scouting software which includes live updates on matches happening during a competition.

Team 610 Sponsorship

Bronze Level and Silver Level Plus:

Gold (\$5000 or Less)

Large logo displayed on robot

Team apparel provided to representatives of the company to wear at competitions

Photo opportunity with company representatives, team members, and robot

Robot demonstration at location of your choice

Silver (\$2500 or Less)

Bronze Level Plus:

Logo displayed on robot

Pamphlets, flyers, or business cards displayed at competitions

Bronze (\$1000 or Less)

Bronze Level Includes:

Logo with hyperlink and contact information on Team 610's website

Logo featured on Team 610 social media and newsletters

Logo displayed at robotics events and conferences

Team 610 would be immensely grateful for your support. Your donation allows us to continue to lead the field in the global robotics arena. It is because of your support that we can continue the work that we do on Team 610.
